
This PowerPoint was created to show how people and places in Benedictine history—especially those encountered by CSB/SJU employees who go on the Benedictine Heritage Tours—are memorialized or reflected in the names of places and buildings on the campuses of St. John's and St. Ben's.

King Louis I of Bavaria (by Joseph Karl Stieler, 1826, http://en.wikipedia.org/wiki/File:LouisI.jpg)

“In 1892 the Convent was enlarged with the addition of St. Scholastica to the northeast corner of St. Benedict, resulting in an elongated ‘T’ configuration. St. Scholastica was designed to mimic the original St. Cecilia in scale and detailing; it is nine bays long and has the same type of window openings, although the dormers are smaller and have gable roofs with only one double hung window. Centered in the façade is a balconied, one-story, flat roof porch. The gable end has a series of double hung sash on each level, while the rear elevation is essentially the same as the façade except for the porch.” --From National Register Report, "St. Benedict's Convent and College Historic District" (1989).

"During the year quite a number of improvements were made on the premises. A large statue of Our Holy Father St. Benedict was erected on the South Campus and a large Lily pond was built in at the South-west Side of the main building. A lifesize statue of Our Lady was procured for the park around the pavilion. The latter was paid for by donations received by the novices." 15-1-1 f. 6 p.15, SBMA
