

Understanding CORE Curriculum Classes available on Study Abroad

In general, most study abroad programs at CSB|SJU allow you to meet Core curriculum requirements and earn some elective credits towards your overall graduation requirement. Some programs may offer the opportunity to take courses towards your major or minor. The language-focused programs are particularly suited towards earning a degree in that language or working towards your Foreign Language Proficiency. In addition, the area studies majors/minors can be enhanced through a study abroad to that region of the world.

Each program has a unique list of course offerings which relate to that country. Consult the program specific brochure for more details about the precise classes.

Be sure to discuss your plans to study abroad with your Academic or Faculty Advisor. It is crucial to plan early and build study abroad into your 4-year plan. It is our goal to make study abroad a part of your degree at CSB|SJU. It should not be an extra semester or a semester off. Below is an overview of how you can use Study Abroad programs to meet Core Curriculum requirements. Please note that courses may change and we can not guarantee availability.
