

Jon Ostazeski

For St. John's Senate

Activities and Allocations Board

My name is Jon Ostazeski, a first year accounting major/art minor from Duluth, MN. I was extremely involved in high school, serving as class president my junior and senior years as well as NHS president my senior year. I currently am a member of the Tommy Basement Improvement Committee and the St. John's Marketing Team. I am running for senate because I want to make a positive impact on St. John's University. Specifically, I am running to be on the Activities and Allocations Board. Aside from ensuring that the activity fee paid by students is spent wisely, other goals I wish to accomplish are:

- Mandating that FYS classes implement historical games into their curriculum
- Allowing students to use flex dollars at Johnnie Java

I have attended many SJS meetings this semester because I am truly interested in and care about what the senate does. I am impressed with leadership of the current senate; therefore, it is my desire to become an active member. It would be an honor to be elected and uphold SJS's current effectiveness.
