

Tyler Effertz

For Saint John's Senate

Judicial Board

Men's issues Representative

My name is Tyler Effertz and I am a first year accounting major, management and sports medicine minor from Bloomington, MN. I was tremendously involved while attending the Academy of Holy Angels, serving as our freshmen and sophomore class president. I was then elected as our all-school president elect my junior year, and was elected to be all-school president for my senior year. I was part of admissions team, diversity team, two varsity sports, math stars, and received certificates in community volunteer work. I am running for the SJS because I believe my strong devotion to faith, family, academics, athletics and the fine arts provide an excellent foundation to represent our diverse student body. With my election to the SJS, I would continue to be a role model for my fellow classmates, and the extended community of Saint John's University. These devotions, along with my proven leadership roles and community involvement, embody what I believe to be the foundation of Saint John's University. My goals for the senate are:

- Increase funding transparency
- Search out more input from the student body
- Communicate effectively as the liaison between the SJS and the Saint John's Center for Men's Leadership and Service
- Chair the SJU food committee
- Look into flex options for Johnnie Java
- Further improvements on the Rat Hole
