

# Tyler Effertz

## For Saint John's Senate

### Activities and Allocations Board

My name is Tyler Effertz and I am a first year accounting major, management minor from Bloomington, MN. I was tremendously involved while attending the Academy of Holy Angels, serving as our freshmen and sophomore class president. I was then elected as our all-school president elect my junior year, and was elected to be all-school president for my senior year. I was part of admissions team, diversity team, two varsity sports, math stars, and received certificates in community volunteer work. I am running for the SJS because I believe my strong devotion to faith, family, academics, athletics and the fine arts provide an excellent foundation to represent our diverse student body. With my election to the SJS, I would continue to be a role model for my fellow classmates, and the extended community of Saint John's University. These devotions, along with my proven leadership roles and community involvement, embody what I believe to be the foundation of Saint John's University. My goals for the senate are:

- Increase funding transparency \*
- Continue to make sure the student activity fee is used responsibly
- Make sure clubs are using all of their allocated money so the students who are paying for them are getting their benefit
- Look into the cable channel package on campus to see if additional channels could be added
- Look into improvements for the Rat Hole in Tommy Hall's basement and the possibility of implementing a check out system for new equipment
