

Sustainability Internships

Department/Agency:

Sustainability Office

Wage:

Unpaid

Length of Position:

Spring Semester 2010

Functions/Description of the Position:

With the recent creation of the sustainability office there are several opportunities for students to make an impact by decreasing the environmental impact of campus, save CSB/SJU money, and create a more equitable campus. This position will have room for individual initiative and will be required to work on variety of projects with the ultimate goal of decreasing carbon emissions and increasing cost savings. Students may focus on education and outreach, conservation, quantifying data, reporting, and new initiatives developing within the sustainability office. There will be 4-5 positions available.

Projects may include:

- Trayless analysis
- Getting local and organic foods into the Refectory and Goreki.
- Greening Orientation
- Recyclemania coordination and reporting
- Researching green cleaning products
- Create a sustainability welcome guide that can be placed in dorm rooms
- Coordinate move out day with the goal of reducing the amount of waste generated
- Assist in idea formation/creating/developing programming for eco-representatives
- Paper projects: recycling of high grade paper, increasing post consumer percentage, and reduction of paper use
- Climate Competition Coordination- developing programming, reporting, and creating incentives
- Others pertaining to students individual interest

Minimum Qualifications to Perform the Duties of the Position:

- Personable, fun, enthusiastic
- Creative thinker

- Able to multitask
- Above average oral and written communication skills
- Interest in environmental issues, social justice, or economics

Desired:

- Knowledge of CSB/SJU power systems
- Economic background
- Experience in student program development
- Web design, Excel

Work Schedule:

Flexible
