

MINNESOTA PRIVATE COLLEGE COUNCIL

October 9, 2017

Senator Amy Klobuchar
302 Hart Senate Office Building
Washington, DC 20510

Dear Senator Klobuchar:

As presidents of Minnesota's nonprofit private colleges, we join together in a unified voice to urge you to work in a bipartisan effort to promptly enact a permanent legislative solution for undocumented childhood immigrants, such as the proposal by Sens. Graham (R-SC) and Durbin (D-IL), to protect DACA enrollees and other undocumented child immigrants by creating a fair pathway to citizenship for these students.

At a time when all of our students should be excited about the start of a new school year, some fear expulsion from the only country they have ever known. They have grown up in our communities, been educated in our K-12 school systems, and have incredible potential to help our country grow economically. Barring legislative action by Congress, students who were brought to the United States as children will lose their eligibility to stay in our country legally and work here. The threat of deportation (in many cases to countries of which they have no memory and whose language they never learned to speak) discourages them from pursuing their educational aspirations and fulfilling their human potential.

DACA students are valued members of our college communities across Minnesota. They enrich and strengthen our campuses with their intellect, their work ethic, and their service to our communities. They are also an important part of our future economic vitality. According to a 2016 report sponsored by the Minnesota Chamber of Commerce and the Immigrant Law Center, (1) DACA recipients contribute millions of dollars to Minnesota's tax revenue and our state has already experienced both social and economic benefits and (2) offering DACA students an eventual path to citizenship would result in additional federal and state tax revenues and would generate increased employment statewide. A national study has reported that deporting these individuals would cost the United States federal government more than \$60 billion and reduce economic growth by \$280 billion over the next decade. Our state and our nation will be strengthened economically by harnessing the talents of these young people.
