Amazon Rainforest- Tiputini Biological Station (TBS) is a state-of-the-art remote field station that focuses on independent research and undergraduate learning. It is located on the northern edge of Ecuador's largest National Park, Yasuní. Access to this research station is limited to undergraduates and researchers so very few people visit the site. The station has cabins with electricity, running water, toilets, and beds (all cabins are screened to prevent bug entry).
After traveling to TBS by plane, boat and bus, we will explore the trails, looking for the 10 primate species that reside in this forest, tapirs, and jaguars. We will visit the canopy walk, which is a series of suspended bridges 150’ in the forest canopy (all have been tested and retested for safety and each person must hook into an independent suspension system). Several activities will include a night boat journey to view caimans and perhaps a jaguar. Indigenous guides will teach us about traditional medicine, animal tracking, and issues about oil extraction and conservation. Classes and schoolwork will be carried out in the air-conditioned library.
Coastal/Oceanic Ecosystem: We will travel via plane and bus to Puerto Lopez, Ecuador. This is a sleepy little town and is one of the whale-watching centers of the country. We will conduct research on the impacts of tourism on humpback whale behavior. During days off, we will visit Machachilla National park and other cultural/ecological places of interest that are near the town. Preparation for this part of the trip will include lectures and readings on whale behavior and the tourist industry. We should be in Puerto Lopez for about five days.

Galápagos Islands: After flying the 600 miles from Quito to the islands, we will spend our 12-14 days visiting 3-5 islands. Our studies/projects will focus on sea lion behavior, blue-footed booby ecology, climate change and intertidal ecosystems, geology and island hot spots, tortoise ecology and conservation, sea turtle ecology and conservation, among others. Opportunities abound and will include: snorkeling with sea lions, sea turtles, hiking with land tortoises, and many others.
