In March the IWL highlights the power women hold as shapers and creators of our world. Through events and programming, we hope to shed light on the talent and leadership that women possess as they pave the way for women coming after them. 

Women as Creators speaks to women as artists, innovators, activists, and leaders as they rise into existence.

What do you love most about working?

"I love having my own painting studio in the California Building in the Northeast Arts District. I love the freedom this gives me to make any size work I want and to be there as much as I want. The diligence that happens in my studio is balanced by the inclusion of fun, personal aspects. For instance I like to play I Love Lucy in the background when I build and stretch my canvases, and I listen to a lot of podcasts while painting."
