Environmental Career Apprenticeship Application

Thank you for your interest in the Sierra Club’s apprenticeship program for careers in the environmental advocacy and communications field. We appreciate the time you are taking to complete this application, and look forward to reviewing your qualifications.

About the Program
The program that you are applying for involves a full-time, 6 month paid staff position that will be based in our Washington D.C. legislative office. This period will run from Wednesday, July 1, 2009 through Wednesday, December 23, 2009. In addition to your salary, the Sierra Club will pay for your transportation to Washington D.C. at the start of your employment if you presently reside outside of the area and for your return transportation home at the end of the program if you are not remaining in Washington D.C. You will be responsible for your living expenses during the program. During the 6 months, each Apprentice will gain experience in the areas of grassroots organizing, national legislative advocacy and media and public communications. You will be trained and guided in your job responsibilities by a team of experienced Sierra Club staff. At the end of 6 months, if you wish to continue working for the Sierra Club, you may apply for job vacancies in any of our offices. Regardless of your choice, we are committed to supporting and assisting you to find your future career path, and we hope that your experience with the Sierra Club will encourage you to seek a career in the environmental movement.

All recent graduates are welcome to apply, and will be given consideration. We are seeking a diverse group of Apprentices, in support of the Sierra Club’s commitment to workforce diversity.

Qualifications
In order to be eligible for the Apprenticeship Program, you must be a recent college graduate with a B.A., B.S. or graduate level degree. You are encouraged to apply in advance of your graduation, but will be asked for confirmation that you have completed your degree prior to starting the program. You must be able to relocate to the Washington D.C. area for the full six months of the program. If selected, you will be expected to work full-time for the Sierra Club for six months.

Like all Club employees, you will be expected to:

- Be a conscientious and reliable team player.
- Be authorized to work in the U.S. if you are not a U.S. citizen.
- Possess good written and verbal communications skills

For this program, we are seeking people who:

- Highly value the protection, preservation and enjoyment of our natural environment.
- Have a commitment to learning and a passion for sharing their knowledge and skills with others.
- Are resourceful and self-directed.
Completing the Application

1. Take the time to fill out the application carefully and completely. This is the first impression that you will make on our selection committee, who will use this information to determine which applicants will be interviewed. You are already an outstanding individual; help us to understand what makes you unique and why you believe you are interested in a career in the environmental field.

2. Your application must be typed. You may attach separate pages if there is not enough space on the form.

3. Take some time with the essay. Your writing style, attention to detail and what you tell us about yourself will help us to evaluate your strengths and potential.

4. Include experience you have through volunteering, being active in organizations, or any leadership roles that you have had.

5. Be sure to attach a copy of your grade transcripts to date and proof of your degree if this has already occurred. If selected, we will request proof of graduation before you begin the program.

6. Be sure to include at least two letters of recommendation from a college level instructor, student advisor or other mentor who knows you well enough to comment on your abilities, accomplishments and contributions. This should not be someone who is a relative or a family member.

Our Selection Process

After reviewing all of the applications our search committee will select several applicants for an interview based on the qualifications, strengths and potential evident in the application materials. The interviews will take place on your college campus when possible, or in the Club’s Washington D.C. office. After the interviews have been completed, the search committee will determine which candidates will be offered a position in the Apprenticeship Program. All selected applicants will be notified regarding their status.
