V. Exceptions to the usual Compliance Requirements:

- Music scholarship students who are off-campus because they are Student Teaching or enrolled in a semester-long Study Abroad program remain in compliance and continue to receive the award. These opportunities are limited to one semester each.
- Woodwind, brass, and percussion music scholarship students may fulfill their obligation by playing in Symphonic Band **plus** one chamber ensemble for one semester during their four years if they have a conflict with one of the three Major Ensembles. Permission is granted by the appropriate ensemble director(s) and needs to be reported to the Music Department office for placement in the student's file.
- Only under special circumstances can membership in one of the other Music Department ensembles fulfill the scholarship requirement. Permission has been granted in the past when Major Ensemble rehearsal times conflict with other required classes and no alternative classes are available, or when the Major Ensembles cannot accommodate additional members. Permission is granted by the appropriate ensemble director(s) and needs to be reported to the Music Department office for placement in the student's file.

VI. Non-Compliance and Reinstatement

Music scholarship students who fail to remain in compliance with the requirements of their award, as described above in I-IV, will lose their scholarship.

Reinstatement of the scholarship after being in non-compliance requires a student to participate in a major ensemble without award for one semester. Half of the yearly scholarship award will then be applied to the student's financial aid package for the following semester. Students will subsequently be eligible to receive their full award.
