

Saint John's Outdoor University Presents

Minnesota's Animal Tracks

Every track tells a story, so what's your story? Learn what animal tracks look like and why they are important. This one hour session will include learning about tracks through storytelling, activities and creating a personal field guide of Minnesota animal tracks to take home with you!

The *Animal Tracks of Minnesota* is a one hour program is geared towards children ages 3-12.

Program available June 20 through August 19, 2016
