

# Soil Rocks!

## Can you *DIG* it?

June 16th - August 16th, 2013

The background of the entire page is a photograph of a child's legs in a white dress standing in a garden. A red shovel is stuck in the soil next to the child. The scene is outdoors with green foliage in the background.

Have you ever  
thought about the  
world beneath your  
feet?

Saint John's Arboretum  
is ready to give you  
the dirt on what is  
going on down there  
through games, stories  
and hands-activities!

Soil Rocks is a one-hour  
program geared towards  
children ages 3-12.
