Our Journey Together: Change
The Academic Year Ahead

Higher Education Climate

- Changing Demographics in the US
- Shifting student choices
- Challenges to our value proposition
- Challenges to our business model
Strong Integration is a national model

Two plus years of intense work by both boards and monastic communities resulted in HLC filing

HLC Visit is September 13, 14 and the results are expected in November

Strong integration will begin with two boards made up of same members

Single president and integrated leadership team is unique and future oriented
Higher Learning Commission received our change of control application last April.

HLC Team visit on September 13th and 14th.

Stronger Integration.
New board members for both CSB and SJU.

New board leadership.

Strategic board committees.

New board governance structure.
