TROUBLE SHOOTING HOUSING PORTAL ISSUES

Having problems signing on to the Housing Portal? Please refer to these error messages and what they mean.

This error message happens when a student does not logout of the Housing Portal properly. To correct it, you must first completely log off any browser you have open (i.e. Chrome, Explorer) and then restart your computer. In addition, you may need to clear the cookies in your browser.

If you are unable to perform this task right away, you can try using another browser (if you are using Chrome, try using Explorer for example) or another computer/smart phone. But eventually you will have to restart your computer to clear that message.

If you are still having issues after trying these things, please stop by the Residential Life office and we can assist.

This error message mean only one thing, you are entering your username and password incorrectly. It’s the same as your student email log in.

If you can sign into your email/outlook/other campus sites with your current password, you should be able to sign into the Housing Portal. Have you forgotten your password? If you are unsure of your CSBSJU password, you can change it here: https://www.csbsju.edu/it-services/password

If you are confident the password is correct, then you are doing one of the following:

- Make sure you are using the correct username and password:
  - **Network Username** = This username is connected to your CSB/SJU email address and is everything before the "@" in your email address.
  - **Network Password** = CSB/SJU e-mail password
- Be careful of cap locks and spacing.
- Make sure to type slowly, making sure not to enter a space after your username. **This is a very common mistake!!**
- Do not let your computer autofill, as an incorrect username/password may have been saved
- Try using a different browser, if you are using Chrome, try using Explorer or Firefox for example.

Students receiving this message should sign into the Housing Portal using chrome or explorer as your browser.
